## Reaching Your Optimal Health with Natural Remedies

All of the systems in the body are interrelated, and we are at our healthiest when each system is functioning properly and in balance. That's why at Native Remedies, we believe embracing the natural approach to complete family wellness can help you find that balance.

Our holistic approach often combines herbal and homeopathic remedies, tissue salts and flower essences because natural medicine works best when remedies are taken together for fast symptom relief and long-term wellness.

- **Homeopathic Remedies** treat the acute symptoms of a condition and stimulate the body to begin the healing process.
- **Herbal Remedies** are dietary supplements prepared from plants for their therapeutic or medicinal value and address the underlying, core cause of an illness.
- **Tissue Salts** are also homeopathic, and bring about harmony in the body so it can heal itself by restoring an underlying imbalance.
- **Flower Essences** address both emotional and psychological aspects of wellness and work to re-balance the body through the organic healing energy of the plant.

### BladderWell™ (Homeopathic) + UTI-Clear™ (Herbal)

BladderWell, our homeopathic remedy, relieves the uncomfortable symptoms of a urinary tract infection, such as burning and frequent urination, while our herbal remedy, UTI-Clear, improves the health and functioning of the urinary tract and bladder when taken regularly. This combination of remedies provides both immediate relief and long-term care - without risking side effects.

You can feel confident in choosing Native Remedies for natural solutions to all your health concerns, as every remedy is manufactured according to the highest pharmaceutical standards using only the best quality raw ingredients from *nature's medicine chest*.
